4 SPEND WEEKS TRAVELING AROUND MEXICO

from **July 5th to July 30th**

The **iSummerMx** Programs are an innovative academic option designed for International students who love traveling and learning about new cultures. They are **four-week long** and were created with an **itinerant schedule**, that is, students will travel to different Tec de Monterrey campuses in different cities. This means that students will learn about different parts of the country without ceasing their studies.

Each Tec de Monterrey campus will organize special activities with field trips, company visits and networking events that will make their experience unforgettable, creating everlasting memories, exercising their intellectual curiosity and developing entrepreneurship, innovation and leadership skills in a multicultural setting.

The programs are based on **experiential learning** so students will learn also outside the classroom by developing real-life collaborative projects with other students.

MIGRATION UP CLOSE PROGRAM

This program will provide students with the necessary theoretical and practical background to have a higher understanding of the migration phenomenon. Mexico has historically been a country of reference when it comes to migration, as a country origin, transit, or destination. Migration Up students will hear from experts in the field, academics and members of international organizations, about the normative side of the issue and the current cooperation projects in our region. This will be complemented by visits to both shelters and offices of international organizations.

During the program, students will be visiting three of the most iconic cities in the country. Visit Santa Fe district in Mexico City, the historic city at Puebla and interact with vivid cultures in Tuxtla Gutierrez.

CAMPUSES

- **Puebla:** Located in one of the best districts of the city, opened its doors in 2003. On 25 hectares, you will find excellent facilities with classrooms equipped with state-of-the-art technology as well as cafeterias, gymnasium, fields and courts to practice your favorite sport. The city of Puebla is located 1 hour away from Mexico City, which makes this campus very attractive for students who wish to travel without having to move great distances.

ITINERANT

INNOVATIVE

INTERNATIONAL

INCREDIBLE

● **Santa Fe:** Located west of Mexico City and designed by the world-famous architect Ricardo Legorreta, Campus Santa Fe was built in 2001. Is one of the newest among other 25 campuses of Tec de Monterrey throughout Mexico. The campus is located in the Santa Fe area, the newest commercial and residential neighborhood that has become the greatest economic activity center within the Mexican capital. Our privileged location, close to charming cities like Cuernavaca and Puebla, allows students to travel and enjoy diverse experiences while living within the heart of the country.

● **Chiapas:** The campus is located in Tuxtla Gutierrez, the capital city in the central part of the state. It has a warm and friendly environment with a vivid student life that encourages students to participate in several social programs that support the development of communities in Chiapas. Its privileged geographical location allows visitors to interact with vivid cultures and enjoy beautiful natural settings. Campus Chiapas also hosts Tec de Monterrey's Center for Social Innovation, located in the city of San Cristóbal de las Casas. San Cristobal is a multi-cultural city where indigenous people, who are decedents from the Maya civilization, coexist with the international vision of residents and visitors from around the world.

WHY i SUMMER MX?

STANDS FOR

- INNOVATIVE
- INCREDIBLE
- ITINERANT
- IDEAL
- INTERNATIONAL

Students will be embarked on the educational model **Tec21**, an ambitious university-wide program to rethink education. **iSummerMX** will allow flexibility as to how, when and where learning happens through:

Company visits

Conferences
with experts

Workshops

Trips

COURSES

Credits per course

3 credits 5 ECTS 8 Tec de Monterrey units

Credit load of the program (2 courses)

6 credits 10 ECTS 16 Tec de Monterrey units

Students will learn and advance their skills by taking 2 courses:

RI3015- Migration and Security

(taught in English)

The focus of this course is to analyze global migration, emphasizing the postulates of migration theories, to offer an in-depth understanding of one of the most important issues of the twenty-first century. The goal is to provide students with the analytical tools that will permit them to describe, explain and evaluate the forces that lead to the mass migration of people

P3011- Civil Society Citizens Participation

(taught in English)

Civil society actors stepped in where states failed to meet the most basic needs of its citizens. Students will be able to identify the different types of non-state actors, witness the importance of civil society, how it is organized and how they participate in a broad range of migration issues. Students will examine the opportunities and challenges faced by civil society organizations.
