

HOW TO SEARCH FOR YONSEI UNIVERSITY COURSES:

Please note that classes at Yonsei University are very competitive, especially for certain subjects (such as Business Administration). Yonsei University encourages students with strict academic needs to complete all necessary course requirements before or after coming to Yonsei University, or to create a flexible course plan, since courses will not be finalized until registration ~ 2 months before classes start.

1. On [Yonsei's website](#) (linked on ISEP [program page](#)), you can search for courses by selecting the “ENG” button, then the Course Catalogue and Syllabus box, which will open up the search tool. If you want to take courses in Korean, you can click the “KOR” button. If the language of the page is glitching, try and disable and automatic translation extensions you have in your browser.

2. I suggest filtering through the College tab for sections of academic areas that are relevant to you. For students planning on taking classes in English, I would also suggest selecting the ‘View only English Lectures in the Results’ box. You can also click the ‘Look Up All English Course’ search button to see every course taught in English there. You can also search by a keyword using the “Search” textbox. **Please note, Semester 1 is Spring and Semester 2 is Fall.** Because catalogs may not be complete for the semester you plan to search for, you may need to choose that semester for the previous year. **Keep in mind classes may change in availability before registration.**

Opened Course List

Explanatory Notes View Course Title English View only English lectures in the results Search for Open Courses with a selected option.

No.	Semester	Campus	Major	Grade	By Subject	Class Session	Course Code-Sec-Lab	Credit	Course Title	Class close	Professor	Time	Lecture room	Language	Lecture Statu	Evaluation Methods	Eligibility of Exchange Student	Precautions
No Data.																		

3. Once you filter accordingly, the syllabi for each course should be accessible by clicking the third purple icon in the **Course Code-Sec.** column of the results. Those results should be in English. Be sure to note the “Y” in the ‘Eligibility of Exchange Student’ – as those reflect classes taught in English and open to Exchange students. Also keep note of the ‘Precautions’ tab and read the notes thoroughly.

Total: [1304]

4. After you select the purple button, you should then have access to the online syllabus in the pop-up menu.

Additional Reminders

- ISEP students can only take courses offered at the **Sinchon campus**.
- Undergraduate course numbers range from 1000 (lower division) to 4000 (upper division). For example, ECO1234 would be a lower division course and ECO4567 would be an upper division course. 5000-level courses and above are graduate courses. Graduate courses are only available for graduate students. 4th-year undergraduate students may exceptionally enroll in up to 1 graduate course.

7. Exchange/visiting students can choose 'UIC' as their major. All other non-UIC students will go through the same application process for classes (Mileage bidding in the 1st round, first-come first served in the 2nd round) EXCEPT when it comes to courses with '**UIC first**' stated in the precaution column. In the 1st round of course registration, UIC students (full time Yonsei UIC students and SAY students who chose 'UIC' as their Yonsei major) will have the chance to bid on UIC courses.
8. Some UIC courses are jointly offered by other departments and may or may not be available to non-UIC major exchange/visiting students.
9. ISEP students who choose a non-UIC major will only be able to take courses in the Underwood International College (UIC) **after UIC students complete their enrollment**. Enrollment in UIC courses for non-UIC students is on a first come-first served basis. Therefore, ISEP students who will study under another major should **not** expect guaranteed enrollment in UIC courses and should find back-up course options when creating their course plan.
10. Graduate courses are strictly open to graduate level students and senior (4th year) level undergraduate students only. In addition, senior (4th year) level undergraduates can register up to 1 graduate course only, and the course must be open to undergraduates (not all graduate level courses are open to 4th year level undergraduates).
11. Students can take courses under the "General Education" colleges. These are lower-level elective courses. Please make sure to check the campuses these electives are offered on, since ISEP students can only take courses at the **Sinchon** campus.
12. For information about Intensive Korean Courses at Yonsei, please go to [this website](#).
